Shipping and Delivery

With any form of travel, our puppys welfare is our primary concern. We prefer not to ship by air if possible. However, if we do extra care for the welfare of the puppy is taken. We will arrange the airline travel for your puppy.

The weight of the puppy and the kennel at the time of departure determines the exact shipping costs. Because the weight of a puppy can change daily, shipping the shipping cost is \$300, (which may be subject to change by the airlines). A new airline approved kennel/crate for the shipment of your puppy is an additional \$50.

The conditions for shipping must be optimal for the puppy. If for any reason the shipping conditions are not optimal for the puppy, the puppy will not be shipped.

Payment is due within one week prior to booking the airline flight. In acclimating your puppy to their new kennel, ample time will be required.

When inquiring about shipping please include the names of two airports in your area.

We will mail your puppys folder, it will contain; receipt of payment, copy of health certificate, AKC registration papers, parents pedigree and so forth. You will receive the package by first class mail with delivery confirmation and/or certified receipt.

The option of land travel arrangements may be available. The availability and the cost of land travel are based on several different factors along with your individual's needs. Please contact us to inquire for the cost of land travel delivery for your puppy.

When your puppy is in route, please stay available by phone before, during and after your puppy starts their journey. When the puppy is traveling by air, arrive early to the airport. It is better and safer for your puppy to have you waiting for them.
